CONSULTING, INC.
A Risk Management Company

PRESENTS:

SUCCESSFUL STRATEGIES FOR CONTROLLING WORKERS' COMPENSATION COSTS

*Tuesday, September 22, 2009
8:00am - 2:00pm*

*at the **Hilton Woodland Hills**
6360 Canoga Avenue, Woodland Hills, CA 91367*

Maintaining workers' compensation insurance is a necessary cost of business, but how do you stop the costs from spiraling out of control? An effective workers' compensation program will utilize the available remedies to achieve the goals of preventing injuries, managing benefit payments and reducing unsuccessful litigation results. This seminar will review the myths and misconceptions about workers' compensation as well as address how to control runaway claims. The 10 key elements of an effective workers' compensation program will also be addressed in order to help your company control workers' compensation costs.

□ ***T*he Anatomy of a Runaway Claim:**

- How Workers' Compensation Claim Costs Can Spiral Out of Control
- How to Stop the Runaway Claim

□ ***A*voiding the Pitfalls of Overlapping Employment Law & Workers' Compensation**

□ ***T*he 10 Key Elements of an Effective Workers' Compensation Program**

***T*his seminar is designed for:**

Risk managers, workers' compensation managers, human resource managers, safety directors, business owners and managers, CFOs, and controllers.

Seminar includes complimentary breakfast buffet and catered luncheon.
